REGULAR AGENDA:

ITEM R2. **Presentation by Jennifer Pratt, Dave Wallace, and Aaron Gwinnup regarding Cedar Lake – South Cell Development project.**

Cedar Rapids representatives presented materials about the Cedar Lake south cell development project. Wallace discussed overall planning for the entire lake with other park, watershed and educational improvements along with Cedar River flood protection planning for lake protection. Wallace discussed design elements of the water quality portion being presented. Gwinnup reviewed the south cell proposed improvement concept that would capture and improve storm water runoff from the Kenwood watershed basin. Hanson asked if a treatment design like the proposed concept was available as a model locally. Gwinnup noted that this design is a standard concept used for this type of management project, but this concept is a larger design than typically used. Goemaat noted this concept is very similar to the Morgan Creek wetland currently being constructed. Goemaat asked what would happen to the rest of the south cell outside of the sheet piling perimeter of this project. Gwinnup noted the rest of the south cell will be designed at a later date. Pratt asked the Board to consider a Water and Land Legacy bond contribution of 3 million dollars. Emerson asking what the total budget was. Pratt confirmed 3 to 5 million dollars. Emerson asked about maintenance. Wallace confirmed City of Cedar Rapids would maintain this through City storm water fees. Hanson asked if funding from the Land and Water Conservation Fund (LWCF) had been looked into. Goemaat noted the County has been funded by the LWCF previously. Emerson noted this project seems to have good water quality impacts supportive of the bond language and the Board will follow up with staff to review. Goemaat noted this project would be on the February meeting as a discussion agenda item. Pratt indicated that currently the project is a key project, but doesn’t have a specific timeline. Emerson thanked the presenters.

ITEM R6. **Discuss proposed Linn County Water & Land Bond projects for upcoming sale of bonds.**

Goemaat reviewed proposed Linn County Water & Land Bond projects for upcoming sale of bonds. Hanson, Emerson and Oleson noted preference to move forward quickly on the Pinicon Ridge Dam project with bond funding. Emerson noted asking Cedar Rapids about timing for potential bond funding timing concerning this bond sale or future bond sales. Randy Burke noted design and permitting would likely be a year out at least. Oleson, asked for staff to review the Cedar Lake project ask and how it would fit with future bond project priorities in regard to the total bond dollars available for water quality projects. Goemaat noted staff will bring to the Board a recommendation concerning the Cedar Lake project in regard to other potential project priorities.
ITEM R7. **Discuss and decide regarding chip revenue expenditure plan.**
