REGULAR AGENDA:

ITEM R2. Feed Iowa First Presentation

Carter Oswood with Feed Iowa First presented information about Feed Iowa First and efforts to identify small agricultural parcels for use in their farming incubator and local food production programs. He discussed operations on the Dows Farm Agri-Community and potential expansion utilizing a portion of Conservation property that is currently row cropped south of Lakeside Road. Charlie Nichols reviewed future plans for the Dows Farm Agri-Community and the need for Feed Iowa First to find land to expand. Additional comments included the positive experience with the Feed Iowa First partnership with Linn County. Goemaat commented on staff support for potential use of the property in question just south of Lakeside Road. Future trail development would complement this program with exposure to the alternative farming practices. Oswood discussed the needed lease longevity due to the time it takes to enrich and build the soil with organic practices. Charlie Nichols noted proximity to Cedar Rapids is attractive to the program for this parcel. Hanson asked about the type of barn would be needed. Oswood said this design would be developed at a later time. Burke asked if sales would happen on the property. Oswood noted options could include site sales. Burke asked about water. Goemaat noted water supply would have to be reviewed for access. Oswood noted this water supply would need to include a well and hydrants, but the design would wait until an agreement was in place. Goemaat noted a potential active well north of Lakeside Drive which could be explored. Oswood noted well design would be a first step. Emerson noted the current agricultural lease if terminated this year might need costs covered by the program. Burke suggested staff continue to work on the concept to bring back to the Board. Nichols noted potential ARPA funds for the well on the property should the lease agreement with Feed Iowa First be approved. Goemaat noted a potential trail construction application through ARPA funds to connect this program with the Dows development.

No motion was made.
