Hughes noted seasonal increases are needed in other organizations. Oleson suggested communicating the Reserve budget appropriately in the budget presentation. Burke complimented staff on their work developing the budget. Oleson asked if there was an alternate plan if proposed increases were not approved. Goemaat noted cuts to operations would be needed. Oleson noted communicating seasonal increase as meeting guidelines because typical salary increases would fall within guidelines. Oleson asked about fuels budgeting offset. ITEM R12.  **Discuss a flag and streamer program for Linn County campgrounds.**

Member Hanson presented on the topic of a flag and streamer program for Linn County campgrounds to promote Linn County campgrounds across the state through the County Conservation system. Hughes asked what the connection is between the flags and our campgrounds. Hanson explained the streamers/flags would display campgrounds visited and that the camper was a regular patron. Oleson noted seeing flags on RV campers of regular patrons. Oleson noted that this would probably only work if the project was part of a state wide effort. Hughes said other counties would need to come together regionally and cost might be significant for design, marketing, and production. Hughes noted we are not struggling to fill campgrounds and this might promote other flags that are not complimentary. Burke suggested discussing with the State association of county conservation boards. Oleson agreed and suggested this program would be best for MyCountyParks and IACCB. Burke and Hughes agreed and noted tying in with regional tourism organizations would be helpful. Hughes noted investment behind the idea is needed. Goemaat suggested discussion with the IACCB CEO at a December meeting. No Motion was made.
