If You Test Positive for COVID-19 (Isolate)

**Everyone, regardless of vaccination status.**

- Stay home for 5 days. You may leave your house on day 6.
- If you have no symptoms or your symptoms are resolving after 5 days, you can leave your house on day 6.
- Wear a **well-fitting mask** around others for days 6-10.

*If you have a fever, continue to stay home until your fever resolves.*

If You Were Exposed to Someone with COVID-19 (Quarantine)

**If you:**

Have been boosted
**OR**
Completed the primary series of Moderna vaccine within the last 5 months
**OR**
Completed the primary series of Pfizer vaccine within the last 5 months
**OR**
Received J&J/Janssen vaccine within the last 2 months

- Wear a **well-fitting mask** around others for 10 days.
- Test on day 5, if possible.

*If you develop symptoms get a test and stay home.*

**If you:**

Completed the primary series of Moderna over 5 months ago and are not boosted
**OR**
Completed the primary series of Pfizer over 5 months ago and are not boosted
**OR**
Received J&J/Janssen over 2 months ago and are not boosted
**OR**
Are unvaccinated

- Stay home for 5 days. You may leave your house on day 6 while wearing a **well-fitting mask** around others through day 10.
- If you can't quarantine, you must wear a **well-fitting mask** for 10 days.
- Test on day 5, if possible.

*If you develop symptoms get a test and stay home.*

In areas with substantial and high transmission, CDC recommends that everyone (including fully vaccinated individuals) wear a mask in public indoor settings to help prevent spread of COVID-19.
