When you're looking for help
turn to a community that cares.

Welcome to My Care Community

Sometimes you need more care than one organization can provide. That's where My Care Community comes in. We are a group of care providers that connect people in our community with the services they need to stay healthy and safe. Our friendly and welcoming service providers listen to your story, and then help you figure out what care is needed. We can connect you to the right places, making it easier to find the help you need.

How It Works

Joining My Care Community is easy.

1. Visit a My Care Community partner organization. See the full list of providers at mycarelinnco.com.
2. Give the OK for us to work with our partners to coordinate your care.
3. We will connect you to the right resources and get you appointments, saving you time, extra phone calls and extra paperwork.

We're always adding new partners to My Care Community. To see the most up-to-date list of organizations in our network, visit mycarelinnco.org.

Always Safe & Confidential

We respect your privacy and take every step to keep your information safe. Only authorized partners can see your information and will only do so for the purpose of coordinating care.

We use the most up-to-date technology to keep the data in our network safe. All of our systems comply with state and federal laws that protect your information, including HIPAA.

If you decide to leave My Care Community, you can opt out at any time, for any reason.
