

Evidence.com Video Discovery Download Instructions

The Linn County Attorney's Office is switching to a new method of handling discovery for outside counsel. With this new method when your video discovery is ready, you will receive an email with a link. This email will arrive from Evidence.com and will be similar to the email included. Once you receive the email you will click on the [[Click here to download](#)] link which is right above the word "Sincerely" and download the file. Once you click on the link, the file will automatically start downloading and will download to your default download location. In google chrome that is the download folder but this location may vary based on your internet browser and your personal settings.

Once the file is downloaded, you'll need to unzip it. To unzip the file right click on the file and choose "Extract All".

Next you'll then choose the location to extract the files to. Click browse to change from the default location if it's not where you want to extract the files to.

Once you have the file extracted, you'll be able to view the videos just like you would from our office or from a CD.
