

Tele-Naloxone

Tele-Naloxone is a partnership between the Iowa Department of Public Health and University of Iowa Health Care.

These organizations understand that you might not be comfortable asking for naloxone from your family doctor, a local pharmacy or a community organization; and that's okay.

With this program you will simply visit with a pharmacist by tele-medicine, directly from your smart phone or laptop, and get **FREE** naloxone delivered to your door.

How does it work?

Get Started Now!

If you are ready to have Naloxone on hand call us today at 319-678-7825 or visit
